PRESIDENT'S MESSAGE:

Thank you to ALL who attended the MSRT’s 81st Annual Conference and business meetings. Your presence, interaction and voice made this year’s meeting a success.

Many thanks to all the presenters and vendors for sharing areas of expertise and for being so warm and inviting. We are each more knowledgeable and better prepared to provide effective and timely patient care due to your contributions to our profession.

- Remember that YOU are the future of our Profession...
- Stand up to be recognized for your role in health care...
- Raise your voice and let it be heard...
- Advocate for your profession, your scope of practice and for your peers...
- Your Profession and your State Affiliate to the ASRT needs your involvement and support.

Sincerely; Scott Haglund,
President, MA Ed, LAT, ATC, RT(R)

Let us start with looking back on the 2019 Conference and start to see how we can make MSRT better…

How did you make the career choice to go into x-ray?
I did job shadowing at local hospital and realized I could still have patient contact and not deal with the stuff I couldn’t stomach in nursing (phlegm, vomit)!

Where did you do your training?
I received my associate from Riverland in Austin and my bachelors from U of M Crookston.

How long have you been a technologist?
1996-present.

What modality (ies) do you work in?
My current title is Medical Physics Assistant – I do regulatory testing on general radiographic and fluoroscopy units. We are also the first call for image quality concerns, troubleshooting artifacts, regulatory questions, and quality improvement.

Any advice for someone considering getting involved in MSRT?
Just do it and get involved! Find an area that interests you and reach out to anyone on the board or committees! We have a great vision in place but need all the help we can get!!

What is the best part of being a member of the MSRT?
Forming friendships, networking with peers, and learning with others.
